

Terms and Conditions

These Terms and Conditions ("Terms") govern your use of the WaweSwaps platform ("Platform") operated as a **decentralized blockchain application**¹. ("WaweSwaps," "we," "us," or "our"). Your access or utilization of the Platform implies agreement with these Terms. If you ("User," "you," or "your") disagree with any part of these Terms, kindly refrain from using the Platform.

1. Eligibility:

- 1.1. To access the WaweSwaps platform ("Platform"), users must be of legal age in their jurisdiction, which is a minimum of 18 years.
- 1.2. Access to the Platform is prohibited in jurisdictions where such access is legally restricted or prohibited.

2. Introduction

- 2.1. The Platform allows access to a decentralized protocol across public blockchains (e.g., BNB Chain), facilitating the efficient unlocking of liquidity from compatible digital assets and other services.
- 2.2. Users interact with the Platform via non-custodial wallet software, enabling interaction with public blockchains.
- 2.3. Users' association with third-party non-custodial wallet providers adheres to their terms of service, not these Terms.
- 2.4. The wallets are not managed, operated, or linked with us. By linking a wallet to our Platform, users agree to comply with these Terms and their integrated content.

3. MetaMask Connectivity:

- 3.1. Some Platform features might necessitate MetaMask connectivity.
- 3.2. As the WaweSwaps app is decentralized, operated by smart contracts, and empowers users with asset and privacy control, users must exercise diligence.
- 3.3. Users are accountable for maintaining the confidentiality of their MetaMask credentials and are liable for all actions under their account.
- 3.4. When setting up a wallet, users should:
 - ✓ Download and install only the latest version from an official source.
 - ✓ Follow the setup guide carefully.
 - ✓ Safely back up recovery phrases.
 - ✗ NEVER share recovery phrases with anyone under any circumstances.
 - ✗ NEVER input recovery phrases into a website or app other than the wallet app.

4. GBL Token:

- 4.1. GBL tokens serve as the native utility tokens of the WaweSwaps platform.
- 4.2. VGBL tokens might be used for governance, voting, or as specified by the WaweSwaps team.
- 4.3. GBL tokens are not considered financial instruments or securities and do not confer ownership rights or dividends.
- 4.4. GBL token values are subject to market volatility and associated risks.

5. Platform Usage:

- 5.1. Users must comply with all relevant laws, regulations, and these Terms while using the Platform.
- 5.2. Engaging in fraudulent, illegal, or unauthorized activities on the Platform is strictly prohibited.
- 5.3. Users must not disrupt the Platform's operation, security measures, or the experience of other users.

6. Token Swapping:

- 6.1. WaweSwaps facilitates decentralized token swapping on the Binance Smart Chain network.
- 6.2. Token swapping involves risks, including market volatility and potential fund losses. Users acknowledge sole responsibility for these risks.
- 6.3. Swapping rewards are distributed daily, calculated from the timestamp of swap creation, continuing until the swap value reaches 200%.
- 6.4. Until Total GBL supply distribution, swapping rewards will represent a model of GBL distribution by swapping effect and user interaction (similar to "crypto mining"), later swaps will be completed solely by creating new swaps.

7. GBL Swap:

- 7.1. It represents the initial, basic, and permanent swapping model inside the WaweSwaps platform.
- 7.2. The purpose is to utilize GBL swapping liquidity and recycle swapping tokens to remove them from circulation, thus impacting their price due to deflation.
- 7.3. To create a GBL Swap, the swapping wallet should have BNB, GBL, and Swapping TOKEN balance.
- 7.4. Until total distribution and based on the provided GBL liquidity, each swap will receive a 2% reward in GBL every 24 hours from the timestamp of creation, continuing until the swap value reaches 200%. These daily rewards are added to an immediate halving reward of 64%, 32%, 16%, or 8%. With each halving, the completion period of the swap proportionally extends.
- 7.5. As WaweSwaps is strictly community-based and managed through DAO voting, creating a GBL swap will also release the same amount of voting tokens (VGBL) as the provided GBL liquidity.
- 7.6. GBL Swap creation fee is 0.016 BNB, and the swap closing fee is 0.004 BNB. Both are daily distributed to eligible GBL stakeholders.
- 7.7. GBL DAO voters influence decisions concerning new listings, exchange rates, and the future utilization of tokens collected in the Swapping TOKEN pool.

8. BNB GBL Swap:

- 8.1. It represents the user-friendly extension of the GBL Swap, with a similar purpose of providing a token recycling functionality within the WaweSwaps platform.
- 8.2. To create a BNB GBL Swap, the swapping wallet should only have a BNB balance. GBL for swapping liquidity will be partially provided from the undistributed total supply and partially from GBL purchase through liquidity provision on the DEX market. Swapping TOKEN will be provided by the WaweSwaps platform and allocated to the Token Recycling pool. Half of the used BNB is distributed between eligible GBL Stakeholders based on their staking power.
- 8.3. The BNB GBL Swap functionality operates until the Total GBL supply is distributed.

9. GBL Loan Swap:

- 9.1. GBL Loan Swap extends trust-building and low-risk swapping practices, allowing users to borrow GBL liquidity. This enhances confidence in WaweSwaps without an upfront liquidity payment. Liquidity payment occurs post-receipt of swapping rewards, utilizing separate GBL Loan Swapping liquidity exclusively.
- 9.2. To create a GBL Loan Swap, the swapping wallet should have a BNB and Swapping TOKEN balance. GBL for swapping liquidity will be initially provided from the undistributed Total supply and subsequently from direct purchases on the DEX markets after each GBL halving. Accordingly, the amount of BNB distribution to eligible wallets will decrease.
- 9.3. The GBL Loan Swap functionality operates until the Total GBL supply is distributed.

10. Games:

- 10.1. The GAMES feature revolutionizes gaming and lotteries within the WaweSwaps DApp platform.
- 10.2. Users engage by choosing a game, contributing BNB or GBL tokens, and awaiting the algorithmically determined winner.

10.3. Smart contracts and blockchain technology ensure fraud prevention and transparent gaming outcomes.

10.4. Immutable results provide a fair and unchangeable record.

10.5. Users accept sole responsibility for the inherent risks associated with gaming activities.

10.6. A processing fee in BNB is distributed daily to eligible GBL stakeholders.

11. Risk Disclosure:

11.1. WaweSwaps provides the Platform on an "as is" basis without warranties or guarantees.

11.2. We do not ensure the accuracy, reliability, or completeness of any information provided on the Platform.

11.3. Users acknowledge that using the Platform involves inherent risks, assuming full responsibility for associated consequences.

12. Limitation of Liability:

12.1. WaweSwaps shall not be liable for direct, indirect, incidental, consequential, or exemplary damages arising from Platform usage.

12.2. We are not liable for losses or damages resulting from reliance on Platform information.

12.3. WaweSwaps disclaims liability for errors, interruptions, or unauthorized access to servers.

13. Modification of these Terms:

13.1. We reserve the right, at our discretion, to modify these Terms. Material modifications will be notified by updating the date atop the Terms and maintaining the current version at [URL].

13.2. All modifications become effective upon posting, and your continued use of the Platform denotes acceptance. Disagreement with modifications requires immediate cessation of Platform access and usage.

14. Non-Solicitation; No Investment Advice:

14.1. All transactions initiated via the Platform are unsolicited. Users acknowledge the absence of investment advice provided by WaweSwaps.

14.2. Information about tokens is for informational purposes only and does not constitute investment recommendations.

15. Description of Services provided through the Platform:

15.1. The Platform enables web or mobile-based access to its functionalities, primarily as a gateway to self-executing smart contracts across public blockchains (e.g., BNB Chain, Polygon, Ethereum).

15.2. We do not control or operate any protocol version on any blockchain. The primary deployment of smart contracts occurred on the BNB Chain, subsequently extending to other blockchains.

16. Eligibility:

16.1. Access to the Platform requires legal capacity for contract formation. Users affirm being of legal age in their jurisdiction and possessing full rights, authority, and power to adhere to these Terms for themselves or entities accessing the Platform.

16.2. Users also affirm compliance with economic sanctions, abstain from illegal activities, and abide by relevant laws and regulations during Platform access and use.

17. Intellectual Property Rights:

17.1. WaweSwaps holds all intellectual property rights concerning the Platform and its contents, including software, text, images, trademarks, copyrights, patents, and design.

17.2. Users are prohibited from using, copying, reproducing, or distributing any intellectual property without explicit authorization.

17.2. By listing, posting, or displaying assets via the Platform, their authors grant WaweSwaps a license to use, copy, modify, and display posted content for business purposes. Assets authors attest to possessing

necessary rights and permissions for listed assets, affirming non-infringement of others' intellectual property rights.

18. Additional Rights:

18.1. WaweSwaps reserves the right to modify the Platform, review, filter, disable, or remove content.

18.2. Cooperation with law enforcement or government investigations is reserved, which doesn't impose obligations on our part.

19. Prohibited Activity:

19.1. Users agree to refrain from prohibited activities, including intellectual property infringement, cyberattacks, fraud, market manipulation, securities violations, sale of stolen property, data mining, objectionable content creation, and unlawful conduct while accessing the Platform.

20. Not Registered with Regulatory Agencies:

20.1. WaweSwaps is not registered with regulatory bodies such as the U.S. Securities and Exchange Commission.

20.2. The Platform does not execute transactions on users' behalf or guarantee the best market pricing or execution.
